LETTER TO EMPLOYER

I'm David Harris. I was born in Trabzon in 1987. Primary and secondary education I completed it in Trabzon. Dokuz Eylul University Electrical Engineering I studied at the department. A period of 20 days in 2007 in the Al-fan fan manufacturing factory within Altunbaş Holding I worked as a production staff. This experience not closely observing the role of worker and engineer and worker psychology was the occasion. Also, Bellona, which belonged to our family before university Salesperson in our dealership and furniture stores in different locations I served as. In August 2012, the Allianz mini internship program I am accepted. Thus, obtaining information about the insurance industry and Koç Allianz I also seized the opportunity. I am very interested in technology and science. Solution orientation, communication in business life, agility, strategy development and team I am extremely confident in his work.
